

Maths Fluency Year 6

1

Addend plus addend equals the sum

Largest number first

Place value is correct

Start with the Ones

				5	5	3	1	
					4	2	1	
	+				3	4	3	
				6	2	9	5	
				1				

2

There are 4 plates.

$$0 \times 4 = 0$$

Each plate has 0 doughnuts on it.

$$4 \times 0 = 0$$

There are 0 doughnuts altogether.

Multiplying anything by 0 gives an answer of 0 as this is the same as no lots of anything

There are 4 plates.

Each plate has 1 doughnut on it.

$$4 \times 1 = 4$$

There are 4 doughnuts altogether.

$$1 \times 4 = 4$$

Multiplying anything by 1 gives the same number as this is the same as one lot of anything

Dividing anything by 1 gives the same number, as this is just one group of anything.

 Part is missing ✓
 Do the inverse ✓

- SUBTRACT

60	
40	?

- 6 Addend plus addend equals the sum
 Largest number first
 Think about decimals like money £__._p
 Place value is correct
 Start with the Ones

$$7.75 + 2.46 = 10.21$$

- 7 How many lots of the divisor go into the dividend?

- 8 How many lots of the divisor go into the dividend?

Maths Fluency Year 6

$$261 \div 3 = 87$$

		0	8	7			
	3	2	2	6	2	1	

$$261 \div 3 = 87$$

		0	8	7			
	3	2	2	6	2	1	

9

Minuend minus subtrahend is equal to the difference
If we cannot subtract, we must exchange from the column to the left.

Larger number first

Place value is correct

Start with the Ones

Top number smaller than bottom number

Knock next door to exchange a ten

Total is known ✓

Part is missing ✓

Do the inverse ✓

10

When multiplying by 10, the digits move **one** place to the left

When multiplying by 100, the digit move **two** places to the left
